Please use the other side for comments, etc.

TOWN OF CAREFREE VOLUNTEER QUESTIONNAIRE

GOALS AND OBJECTIVES

Carefree's objective is to preserve a quiet, tranquil place in which to live by recognizing our rural residential lifestyle and focusing commercial development sensitive to Carefree's values within the Town Center and other specified secondary commercial centers.

Continuing goals are:

1. To keep the semi-rural nature of Carefree and to avoid the adverse impacts of noise, air and water pollution, traffic congestion, destruction of the scenic beauty and disturbance of the ecology and environment of the very unique Sonoran Desert in which Carefree is located.
2. To promote safe and efficient circulation of traffic within the community and support bicycle and pedestrian connections between local destinations.
3. To assure adequate water supply (both present and future) and encourage and support water conservation.
4. To support the Town Center as the primary commercial center for Carefree. Concentrate commercial uses in the Town Center and existing secondary centers rather than scattered throughout the Town.
5. To support tourism to provide financial resources to serve Carefree while maintaining the character and lifestyle of the Town.
6. To work with surrounding communities in a spirit of cooperation, diplomacy and tact.
7. To encourage excellence of architecture, construction and appearance in all development.
8. To preserve the natural desert environment including flood areas, washes, steep slopes, boulder outcroppings and desert vegetation.
9. To emphasize quality development at all entrances to the Town, thereby promoting the character of Carefree.
10. To provide only as much government as citizens desire.
